4, Outcome:

A traditional British picnic, with parents, with a chance to show off our books and learning journeys.

2,

We hope you have all had a lovely Easter break and enjoyed some quality time with your families. We're sure the children are well rested and ready to take on their final term as Year 1s! Time flies when you're having fun!

Last half term the children focussed their learning around summer holidays with a focus on Spain. This half term the children are really excited to build on the holiday theme and learn all about Great Britain, British culture and traditions.

The Children will study the UK in geography and look at some popular British traditions and British culture in a range of subjects.

3, This half-term the children will be learning all about the recounts and their features in literacy. They will work towards writing a recount of their own based on a very popular British tradition they're going to take part in at school... A treasure hunt! In geography the children will learn all about the 4 countries of the United Kingdom, their capital cities and their famous landmarks. They will also learn how to locate these on a map. In science the children will be learning about plants! They will be doing some planting and learning about the different parts of different British plants and trees. We may throw in some exciting experiments too, we are Year 1 after all!
