

Chatter Matters 16th March 2018

Next week we will be finding out about different types of monkeys that live in the jungle! There are many different kinds of monkeys that live in the jungle such as the mandrill, howler monkey and spider monkey. Have fun finding out about these sorts of monkeys at home! What other types of monkeys live in the jungle? What do they like to eat? What sorts of sounds do they make when they are talking to their monkey friends?

Magical Maths Challenge 16th March 2018

Next week we will be playing a counting and number game that involves counting lots of bananas!

Have a go at counting different items around your home.

Maybe you could find out how many teddies you have by carefully counting them all. How many spoons are there in your cutlery tray? How many peas are there on your plate at tea time? Ask a grown up for their keys, can you count how many keys there are on their key ring?

Let us know how you get on at home by commenting on your child's Tapestry account.
