*Stand Tall, Reach High, Love Reading*

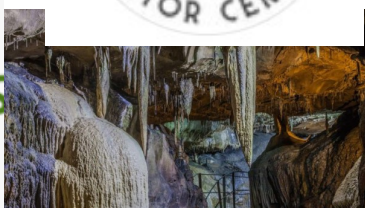

## We Went On A Trip!

Well after another lockdown, we are finally all back in school, hopefully to stay! This year has brought with it its own challenges with learning on Showbie, lockdowns and bubble closures. However, the Bowerham fighting spirit has shone and the children have been amazing both during lockdown and on their return to school. We have all been very proud of everything they have achieved and how they have coped with the disruption.

As soon as the staff were able, they went online and booked trips and coaches to make sure the children all got the chance to have this experience as so many others have been lost this year. We have been everywhere, from Warton Crag (Year 4) to Hawkshead Chocolate Factory (Year3), via Ingleborough Caves (Year5), Dalton Zoo (Key Stage 1), Lakeland Farm Visitor Centre (Reception), Greenlands Farm (Nursery) and of course our annual Year 6 overnight stay at Waddecar Scout Camp. We were particularly pleased about the Waddecar trip as sadly last year the Year 6 pupils missed the opportunity due to lockdown.

Waddecar Scout Camp

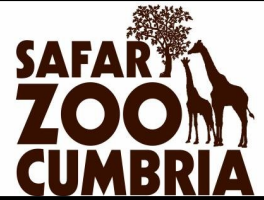

Unfortunately the Year 6 had their bubble closure and were unable to perform their Wizard of Oz performance which they and everyone else were looking forward to. This was another blow to their final year at Bowerham and the chance to come together at Waddecar is especially important for them. They will however, take part in their final assembly which we will all be watching. We wish our Year 6 children all the best for the next step in their lives and for whatever their lives hold. Remember, you will always be part of the Bowerham Family.

**Goodbye & Good Luck  
Year 6**

# Dalton Safari Zoo

## Year 1 hit the zoo!

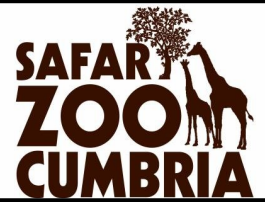

On Tuesday 15th June Year 1 went to the zoo. We were so excited to travel on the coach. We sat next to our friends, we had a partner to hold hands with and we looked out of the window as we travelled up the motorway to Dalton. When we got there we got into our groups and we had a teacher

leader. While we explored the park we saw stripy tigers, tall giraffes, a huge rhino with it's baby calf, a feisty jaguar and a colourful, feathery peacock. We ate our lunch with the company of the giraffes and peacocks. The sun was shining and we were lucky enough to feed the giraffes pieces of carrot. We

had to put the carrot in our fingers, hold it up to the giraffes and then they stuck out their tongue and then they took it from us. They were very greedy but very polite! We had the best day and enjoyed the company of the animals! You should visit too!

# South Lakes Safari Zoo

## Year 2 hit the zoo too!

Year 2 went to South Lakes Safari Zoo on Tuesday the 15th of June. We travelled on a coach and had talk partners for the journey. After our coach journey 2NN fed the very "waddlely" penguins with stinky fish! 2AT fed the ring-tailed lemurs apples and pears, lemurs are herbivores with long black and white tails. There were huge jaguars being fed chunks

of meat and stripy tigers prowling their cage. Around the zoo peacocks ran around with big colourful tails, making lots of noise with their tiny chicks. We saw many carnivores: gigantic snow leopards, Arctic-wolves, vultures and Iberian lynx. Year 2 met some pink flamingos, baboons with big pink bottoms and an ancient tortoise. We learnt that the Iberi-

an lynx's are meat eating animals (carnivores) and that a vultures wing span is 10 metres long! Going to the zoo was amazing!

After a long day some of us fell asleep on the coach journey back to school.

All in all a fantastic day was had by all!

# Year 3 Chocolate Factory Trip - Chocolate Heaven!

Year 3 went on a fantastic, tasty trip to The Chocolate Factory, Hawkshead on Wednesday the 16th June 2021.

We travelled on a coach, setting off at 9am we arrived at Hawkshead just before 10:30am.

When we arrived, we split into three groups of 20. Our activities were; writing chocolate themed acrostic poems, blind tasting chocolate to see how good our taste buds were, watching a video about the History of chocolate and making chocolate in the workshop. Inside the workshop the smell was breath-taking! Before we made any chocolate we had to wash our hands, put on an apron and wear a hair net.

Year 3 really enjoyed making their chocolate in the delightful workshop.

Year 3 were given paper and pencils to write their own acrostic poem, just like this:

Chocolate is nothing like you've ever tasted before.

Humble and crumble, it tastes so good!

Oh how delicious it is.

Creamy melted chocolate

Ooooo I really like that chocolate

Lovely chocolate sits in my mouth, I can not swallow it because the taste is so good

Amazing smell in the chocolate factory

Taste buds are liking the taste a lot

Elegant chocolate in the shop

Year 3 felt excited because we were able to eat chocolate and brought lots home too! Year 3 brought home their own chocolate bar, decorated with a white chocolate name and sweets, a marshmallow stick covered in melt-

ed chocolate and a delicious sculpture of chocolate. A week later, some of the children have already devoured their chocolate and reported that it was scrumptious and melted in their mouths. The children want to make some more scrumptious chocolate in the future. Since we have returned to school, we have written lots about our trip including a diary entry and a just write to tell year 2 all about it. Many of the children would like to visit the chocolate factory again!

We hope year 2 are able to visit next year and that they enjoy their trip as we certainly did!

We were even drawn on with white chocolate....yummy!

# Year 4's Crazy Choral Crag

By Year 4

On Thursday 17th June 2021, Year 4 went on a Geography fieldtrip to Warton Crag near Carnforth to investigate human and physical features in our environment.

We left school at 9:30 am and after a brief journey arrived at Warton Crag. We were dropped off outside the George Washington public house, so called because his family originated in Warton. After that, we walked up the front of Warton Crag, stopping to identify human and physical features in the environment. We saw towns, villages, roads, farms and even The Ashton Memorial! We also saw rivers and the sea as well as a man made lake.

On the top, we found the

beacon and the marker which told us we had reached the summit. It was very overgrown, therefore we had to go down the back to find a good picnic spot.

We ate under an enormous tree and had a rest before setting off again.

Once we had cleared away all our litter, we set off back down Warton Crag.

In a clearing, we stopped so that we could sing our song for the choral speaking we have been practising in school. We sang "Lean On Me" by Bill Withers. "It sounded absolutely beautiful." said Mrs Bradshaw. We had to film it twice to make sure we had the best recording.

Once we had our recording, we carried on walking down. At Occupation Lane, we turned right and headed towards Coach Road. We had to go down a very, very steep hill and through a

narrow stile onto the path which would take us back to the start of our adventure!

We had to wait for a while outside the George Washington pub for the coach to pick us up, but this gave us the chance for a rest and a drink. The coach journey home was very quiet and many of us fell asleep.

We were so lucky that the weather was beautiful and we had a great day. We would all recommend the walk to anyone who enjoys spending time in the outdoors.

# Year 5 Caved In

## Year 5 Dive Into Ingleborough Cave

On Wednesday 16th June 2021, Year 5 got into a coach and headed to Ingleborough Cave, to make discoveries about historical geology.

### The Chaotic Coach

Year 5 were on the coach and the ride took about 50 minutes. The journey was noisy, from students singing nursery rhymes, and from the excitement that buzzed around the seats. All was going smoothly, until sickness spread through the coach, like chocolate spread on toast. Eventually, the Year 5s were able to escape from the smelly, sickly coach, as they breathed the fresh air from the Ingleborough Village car park.

### Tree-Punching Tour Guide

Year 5 then met their amazing tour guide, John. After the introduction, John took

the year group to the bottom of the nature trail, which was filled with trees galore! John described many types of trees, such as: beech, evergreen, sycamore, ash, redwood (the tree he punched), oak and yew trees. The ongoing nature trail lasted for about an hour, many legs were aching! However, Year 5 were still able to enjoy what they saw; evergreen trees that glistened like emeralds, yew trees that were made of money and the gentle flow of water that ran below the path.

### Onward into Ingleborough Cave

Hard hats on, Year 5 entered the mysterious cave through the dingy, dark passage; they felt a sudden icy blast in the atmosphere. Goosebumps slithered up their frozen legs like a fearless flash flood! Suddenly the shivering became the least of their problems; as they started to duck and twist round every corner, they were never sure what was coming next...

Drip, drip, drip! With a menacing presence, the Witches Fingers towered above, dropping murky and grim waters onto the shivering spines of the petrified pupils. Along with the Witches Fingers, Year 5 encountered many more fascinating features such as, the (bottomless) abyss, fantastic fossils, an

extravagant cave elephant and a 'h-awesome' horse leg. Year 5 thought it was a wondrous tour!

### The Perfect Picnic

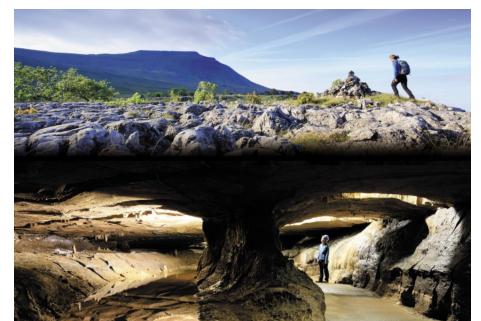

By this point, the children were quite hungry and were ready to tuck into their scrumptious sandwiches. They savoured every mouthful; food has never tasted so good! As they sat on the green pasture and picnic benches, Year 5 discussed what they had seen that day.

"In the cave, I saw crystals," explained Sienna.

"I saw stalactites and stalagmites forming solemnly," added Jack.

Year 5 interviewed their peers and uncovered mixed feelings about the trip. Some thought there was so much information that we lost out on walking time; others were glad to absorb these facts!

Sadly, all trips must come to an end. However, you too could experience this unique trip, wouldn't you want to go?

# Fun Times

Can you solve this riddle?

$$\text{soccer ball} + \text{soccer ball} + \text{soccer ball} = 18$$

$$\text{soccer cleat} + \text{soccer ball} + \text{soccer cleat} = 24$$

$$\text{soccer player} + \text{soccer player} + \text{soccer player} = 48$$

$$\text{soccer goal} + \text{soccer goal} \times \text{soccer goal} = \text{soccer player} \quad \text{-- GPUZZLES.COM}$$

$$\text{soccer ball} + \text{soccer goal} \times \text{soccer player} = ??$$

Why couldn't the pony sing a song?

Because she was a little horse.

Why are fish so clever?

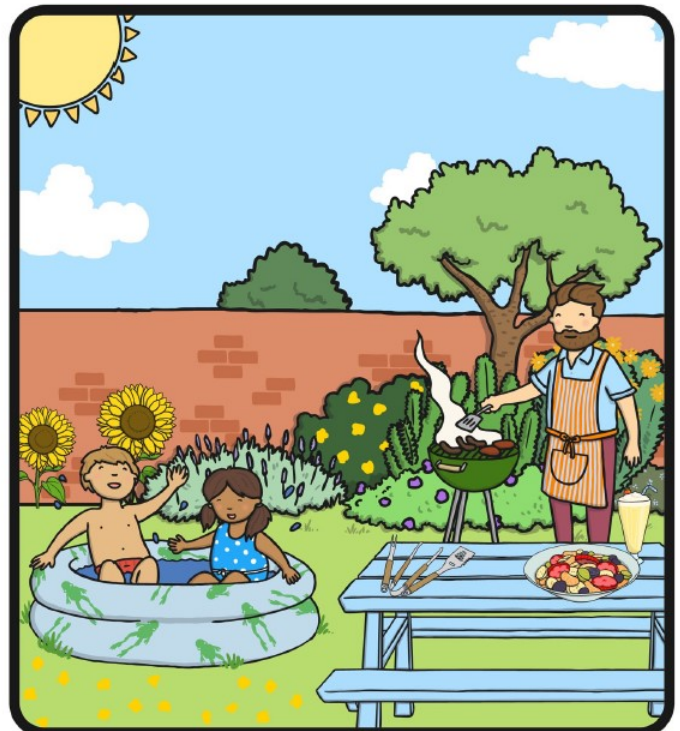

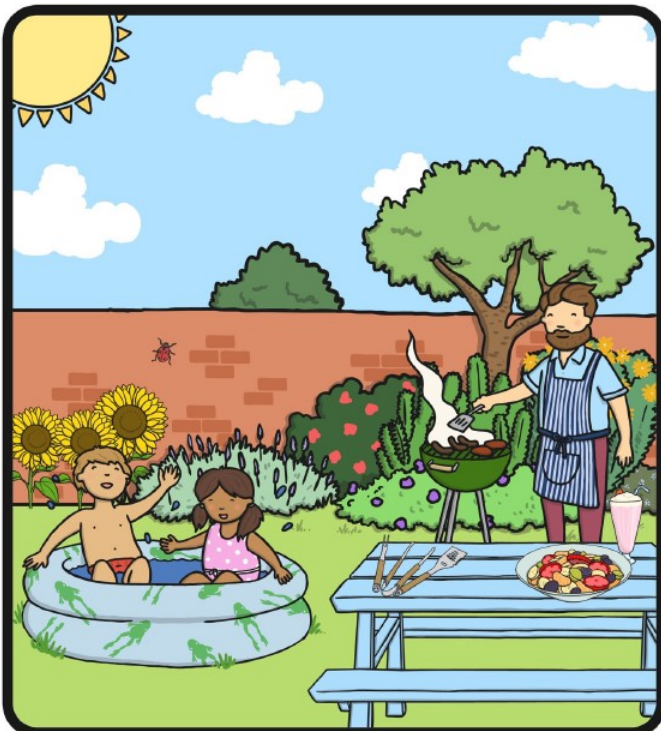

Because they live in schools!

What did the beach say to the tide when it came in?

Long time no sea!

## Summer

There are 8 differences in the pictures below, can you find them all?

# Zoo Animals

DIRECTIONS: Circle the names of the different animals from the word list in the letter grid below. To find them all you will have to look in every direction, including backwards and diagonally. Good luck!
