

Children's remote learning questionnaire results

KEY FINDINGS

Children are happy using Showbie as a platform for remote learning; they find it easy to navigate and enjoy the variety of formats that they can submit their work. Having a flexible timetable has been beneficial for the vast majority of children and has helped encourage independence and child's responsibility for managing their time. Children stated that they have received regular feedback from adults in their year group and generally the majority of children said that the amount of work set is manageable.

Children have really missed their friends and the social contact that a school setting provides. They have really appreciated the video calls where they can see their friends. Response to the drop in sessions has been mostly positive with small amounts of children stating that they did not find it useful – however the benefit of working with smaller groups online has allowed for an opportunity of more face to face contact where necessary.

Please see the data below for the results across school of our children's questionnaire:

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
No. of responses	31	23	37	34	28	18

Q1. What do you think of using Showbie for remote learning?

POSITIVES	94%	100%	100%	95%	100%	95%
Excellent	41%	42%	54%	49%	52%	28%
